

Software update information

File name: UPD05004.bin

Content

The content of the software update depends on the status of the software installed in your vehicle. See the description below for details of the content of the update and the devices supported.

From those listed below, the version that is appropriate for your vehicle is installed:

- ▷ MN-1.23.4, TN-1.23.2

Conditions

The software update is available only for certain vehicles equipped with a USB audio interface. In these vehicles, the main menu "Settings" includes the menu item "Software update". Further information is provided in the Owner's Handbook for Vehicle under Software Update.

Go to www.bmw.com/update or the compatibility matrix at www.bmw.com/bluetooth to find out whether your vehicle is supported.

Installation

Installation of the software update requires agreement with the terms and conditions of use. For further information, see www.bmw.com/update. For the purposes of installation, save the software update file in the main directory of a USB device. Observe the additional instructions in the Owner's Handbook under Software Update. Following installation of the software update, the new software status is shown in the vehicle under "Show current version".

Notes

When software updating completes the vehicle has to be switched off. Data transferred from external devices are synchronised, if applicable. Tracks or playlists played before the software update must be selected again. This is also necessary if the previous version of the software is restored using "Restore software".
