Subject: **Delivery Stop: 2013 M5, M6 Coupe and M6 Convertible Oil Pump**

BMW Dealer Principals, Sales Managers, Service Managers, and Parts Managers

A Delivery Stop has been issued by BMW AG to correct a potential problem with the engine oil pump on certain S63TU-equipped vehicles. Affected vehicles are the 2013 Model Year M5, M6 Coupe, and M6 Convertible. Vehicles equipped with an affected pump could experience a sudden loss of oil pressure which will result in severe engine damage.

BMW Customer Relations is contacting customers that have already taken delivery and recommending customers not drive the vehicle. A Q&A will be provided to all BMW dealers in the form of an additional DCS message later today. This Q&A will provide you with the necessary information to answer your customers' concerns.

Vehicles included in the accompanying VIN list must **not** be delivered until the repairs are completed.

Do not order any parts at this time.

Sincerely,

Technical Service
